

## **Attack on Temple Israel**

The attack at Temple Israel in Michigan is a terrifying, humbling reminder of the violent world we are living in, the deep pain so many are in, the fear too many live with.

May the security guard who was injured heal quickly and fully. Thank God the children and other staff on site were not hurt.

Houses of worship should be a refuge. Every time a religious space is harmed - by car, by bomb, by arson, by gun, by an army or a lone wolf, in West Bloomfield or the West Bank, it is a desecration of the Divine.

May we soon see fulfilled the vision of our prophet Isaiah: They shall not bear children for terror... Nothing evil or vile shall be done.
